It Happened! It Happened! It Happened! We have a Barbeque Cover!

Thanks to Lion Thor and crew, on March 22, and 23 we installed the much anticipated BBQ roof. "It's beautiful", was the most heard comment at the "roof raising event."

The installation went well. Even with Lion Dan utilizing his fork lift with the cover over 10 feet off the ground, there were no injuries. Well, a few scratches, bruises and sore backs, but other than the normal aches and pains for this group things went well.

The cover was put in place and leveled within a few minutes. All of the planning allowed for this to be a fun time for all, well almost all.

Terry's design for the BBQ Cover was exceptional. Thor did an outstanding job of fabrication.

Les did an excellent job as "general contractor". Les had every move planned to ensure a safe and efficient construction project. And had we listened to him things would have even gone much better.

Lion Terry also took the time to ensure the exact proper location and alignment of the cover. He even had the right tool to do the job!

Lion George and Lion Tom were smart, they brought help with them. Tom's son Bill was there to

provide Dad with a strong arm. Lion George's son-in-law Ed and Grandson Joe provided much needed excavation assistance.

Lion Thor's assistant Brian, was instrumental in getting the siding lined up and installed. He really facilitated this process. Except for almost falling off the scaffolding, Brian performed flawlessly.

Everyone brought tools. Most of us were happy when someone else used our tools.

This installation should go down in history as the most documented BBQ roof installation. There were four or five cameras documenting the process.

A big **thank you** to everyone who put their hard work and energy into this worthwhile project!

Things are progressing well!
